

**عزیزانی که نتیجه داوری مقالات آنها اعلام نشده است، پس از واریز هزینه های سمینار و دریافت فیش واریزی توسط دبیرخانه نتیجه داوری مقاله آنها اعلام خواهد شد.**

نتیجه داوری	کد مقاله	عنوان مقاله	ارایه دهنده
Poster	1003	Investigating the effect of constraints on the accuracy of the area of feasible solutions for the real datasets with an improved cost function of the polygon inflation algorithm	رحیم دوست مژدهی، نهال
Poster	1005	Simultaneous determination of cationic dyes from aqueous solution using first-order derivative spectrophotometry	بگتاش، مریم
Poster	1006	Design of potent aromatase inhibitors through pharmacophore hybridization: QM/MM and docking study	اسدی، پروین
Poster	1007	Multivariate calibration methods for simultaneous multicomponent determination of two synthetic dyes in fruit juice samples	رحمانیان، رضا
Poster	1012	Estimating complicated baselines in analytical signals by iterative training of Bayesian regularized artificial neural networks	کنگی نژاد، عاطفه
Oral	1013	A theoretical approach to model and predict the adsorption coefficients of some small aromatic molecules on carbon nanotube	حیدری، افسانه
Poster	1014	QSAR modeling of Sphingosine kinase inhibitors using multivariate adaptive regression spline and projection based regression techniques	نی بند، مرضیه سادات
Oral	1015	An Investigation on Meaning and Reliability of Local Rank Constraint in Self-Modeling Curve Resolution of Chemical Data	اکبری لاکه، مهسا
Poster	1016	Study of anti-cancer activity of parthenin derivatives using support vector regression and molecular docking	گرکانی نژاد، زهرا
Poster	1017	In silico prediction of cutaneous penetration rate of some chemicals from their molecular structural descriptors	به گزین، سیده مژگان
Oral	1018	3D-QSAR studies of the inhibition efficiency of phenolic herbicides on photosynthesis by using CoMFA and CoMSIA	سامقانی، کبری
Poster	1019	3D QSAR prediction of molecular flux through polydimethylsiloxane membranes using CoMFA and CoMSIA	به گزین، سیده مژگان

		methodology	
Poster	1020	Developing a support vector machine based QSPR model for prediction of half-life of some herbicides	سامقانی، کبری
Poster	1021	Modeling and prediction of adsorption behavior of nanotubes	حیدری، افسانه
Poster	1022	Novel application of the CORAL software to model Cellular Uptake of Magnetofluorescent Nanoparticles in Pancreatic Cancer Cells	ملک زاده، هانیه
Poster	1024	Selective extraction and determination of urinary nickel in foundry workers with the aid of a novel magnetic ion imprinted polymer nanoparticles and experimental design methodology	جلیلیان، نیلوفر
Poster	1025	Characterization of Teucrium Polium Essential Oil component by GC-MS analysis using MCR and PARAFAC methods	نیک پور، حمیدرضا
عدم واریز هزینه	1028	Development of New Interfaces for Performing Chemometric Methods in Portable Instruments and Smartphones	*****
Poster	1029	Partial least squares multicalibration method as an alternative and improved method for the simultaneous determination of montelukast, fexofenadine and cetirizine in pharmaceutical tablets and biological sample	نیکو، سید محمد
Oral	1030	A systematic study on the effect of noise and shift on multivariate figures of merit of second-order calibration algorithms	احمدوند، محمد
Poster	1031	Application of experimental design as chemometrics tool for optimization of new coupling of ultrasound assisted and reverse phase- dispersive liquid-liquid microextraction before high performance liquid chromatography for the sensitive determination of vitamin A in oil samples	فارسی مدان، سحر
Poster	1032	Chemometric optimization of ultrasound-assisted dispersive liquid-liquid microextraction based on solidification of floating organic droplets for determination of sertraline and citalopram in human serum by high performance liquid chromatography	فارسی مدان، سحر
Poster	1033	Potential of modified ionic liquid cold-induced aggregation dispersive liquid-liquid microextraction and central composite design for simultaneous preconcentration and determination of lead and cadmium in food and water samples	سعیدزاده امیری، نصیبه

Poster	1034	Characterization and classification of Iranian honeys based on physicochemical properties and antioxidant activities, with chemometrics approach	مولودیان، حمید
Poster	1035	Investigation of the effect of various gravitational-constant functions on the feature selection performance of GSA: A QSAR study of antiprotozoal activity of benzyl phenyl ether diamidine derivatives	باغکلی، طیبه
Oral	1036	Metabolite profiling and chemometric classification of two varieties of <i>Ocimum basilicum</i> medicinal plant	ایزدیان، پریسا
Poster	1037	Implementing partial knowledge based on Duality	توکل، الناز
عدم واریز هزینه	1038	Gaussian apodization evolving factor analysis as a novel method for curve resolution of gas chromatography–mass spectrometry datasets and precise local rank detection	*****
Poster	1040	Identification of potential antioxidant compounds in Walnut ( <i>Juglans regia</i> L.) leaves extract by linear multivariate calibration techniques and HPLC-DAD-MS	معصوم، سعید
Oral	1043	Analytical view on uniqueness	بیرامی سلطان، سمیرا
Poster	1044	Potentiality of independent component regression in assessment of the peaks responsible for antioxidant activity of Thyme using gas chromatography-mass spectrometry technique	معصوم، سعید
Poster	1045	Advantage of multivariate calibration methods to introduce carbon dots as a novel pH sensor	براتی، علی
Poster	1046	An Approach to Determine Accurate Model Parameters of Buffered Chemical Processes	مسرور سعادت ابادی، محمد جواد
Poster	1047	Chemometrical study of spectral curve fitting constraint on self-modeling curve resolution methods	خدادادی، سمیه
Oral	1048	<i>Sargassum Glaucescens</i> for the removal of Methylene blue, Crystal Violet and Safranin in ternary system by artificial neural network modeling, Plackett–Burman design and response surface analysis	ناطق، اشرف
عدم واریز هزینه	1050	Ab initio investigation of inclusion complex formation Of dipeptidyleaminopeptidase antimalaria agents With trioxane	*****

Poster	1051	Comparison of discriminatory power from soft-modeling methods coupled with multivariate pattern recognition technique for the identification of similar compounds	کاظمی، داود
Oral	1053	How to Expand the Use of Independent Component Analysis in Analytical Chemistry?	پرستار شهری، هادی
Poster	1055	Simultaneous optimization of dispersive micro-solid-phase extraction of acidic and basic pollutants with the aid of desirability function	اصغری نژاد، علی اکبر
Poster	1056	Is There Possible to Compare Biological Potency and Features of Colloidal Silver Nanoparticles Applied in Different Culturing Media?	میرزاجانی دمنه، فاطمه
Poster	1057	Application of random forest (RF) for the modeling of Anti-HIV activity of some dibenzyle pyridinon derivatives, as HIV-1 integrase inhibitor, using group contribution descriptors	عسلی، عطیه
Oral	1058	Direct Triadic Decomposition	امیدی کیا، نعمت الله
Poster	1059	Chemometrics-assisted excitation-emission fluorescence analytical data for rapid and selective determination of optical brighteners in the presence of uncalibrated interferences	محسنی کیا، عاطفه
Poster	1060	Evaluation of physical properties and antioxidant activity of some Iranian herbhones and classified by PCA and HCA chemometric method	صادقی نژاد، نگار
Poster	1061	Simultaneous determination of paracetamol, diphenhydramine and dextromethorphan in pharmaceutical preparations using multivariate calibration 1	نیکو، سید محسن
Poster	1062	QSAR modeling of binding affinity of some serotonin receptor antagonists using docking derived molecular descriptors	بهرامی، هنگامه
Poster	1063	Spectrophotometric multicomponent analysis of a ternary and a quaternary mixture in human urine samples by analyzing first order data using MCR-ALS.	قاسم زاده، بهار
Poster	1064	Determination of acidity constants of cinnamic acid derivatives using two rank annihilation factor analysis (TRAFA)	زارعی، طاهره
Poster	1065	Fourier transform infrared spectroscopy coupled with multivariate classification methods to identify adulterated infant formula powder with Melamine and Cyanuric Acid	شیخی زاده، ساحله
Poster	1068	Standard Addition Method Coupled with Principal Component Analysis for Quantitative Study of Real Samples Using Spectroscopic Data	غفاری، مهدیه
Poster	1070	Using net analyte signal for determination of acidity constants of caffeic acid in multivariate spectrophotometric analysis systems	زارعی، طاهره

Poster	1071	Geographical origin identification of Iranain soil samples by ICP-MS and ICP-OES elemental analysis by chemometrics methods	ویسه، سمیه
Poster	1072	Flotation-assisted homogeneous liquid-liquid microextraction and inductively coupled plasma-mass spectrometry for determination of thorium based on Box-Behnken Design	ویسه، سمیه
Oral	1074	Using global and local sensitivity analysis for variable sorting and selection	رستمی، اکرم
Poster	1075	Visualization of error propagation and one-factor at-a-time local sensitivity analysis concepts	رستمی، اکرم
Poster	1076	Pharmacophore-based virtual screening and toxicity risk analysis for identifying novel MPS1 inhibitors	نظر شده، المیرا
Poster	1077	Evaluation of electrochemical process variables for removal of basic yellow 28 using a central composite design	روحانی مقدم، مسعود
Poster	1078	Experimental design and multiple response optimization for decolorization of acid blue 25 using electrochemical treatment	روحانی مقدم، مسعود
Poster	1079	Mean centering of ratio spectra for colorimetric recognition of morphine using melamine modified gold nanoprobe	محسنی، نعیمه
Poster	1080	Determination of Ofloxacin in human plasma using dispersive liquid-liquid microextraction combined with spectrofluorimetry with the aid of box-behnken design	اسدیان، فرح
Poster	1081	Rapid chromatographic analysis of selected UV filters and parabens in sunscreen products exploiting second-order calibration methods	شکاری، نفیسه
Poster	1082	An efficient chemometric strategy based on wavelet transform for preprocessing of multi-capillary column – electronic nose data	علی نوری، امیرحسین
Poster	1084	Multi-element analysis of hair samples by ICP-MS and classification using chemometrics methods	صدری، نرگس
Poster	1085	Principal component analysis and K-nearest neighbor clustering for classification of soil samples via ICP-MS in Maygan salt lake	ربیع، محبوبه
Poster	1086	A method for rapid screening of interactions of pharmacologically active compounds with bovine serum albumin by chemometrics methods	منوچهری، فیروزه
Poster	1087	Application of vortex – assisted dispersive liquid–liquid microextraction coupled with spectrofluorimetry for determination of aspirin in human urine by response surface methodology	تمیجی، زهرا
Poster	1088	Box-behnken experimental design based optimization technique in head space-solid-phase microextraction–gas chromatography/mass spectrometry for simultaneous determination of BTEX in Urine.	رحمانی، مهدی
Poster	1089	Box-behnken experimental design (BBD) for optimization instrumental parameters effects for powder coating particle size	رحمانی، مهدی
Poster	1092	Quality control of standard saffron samples from food colorant adulteration using chemometrics analysis of transmittance FT-IR spectra	کریمی، صادق
Poster	1093	Chemometrics-assisted of ultrasonic emulsification–microextraction for simultaneous spectrophotometric determination of Cobalt, Nickel and Copper	درودی، زهره

Poster	1094	Simultaneous spectrophotometric determination of oxytetracycline, tetracycline and doxycycline in milk and honey samples. Comparison PLS and PARAFAC	درودی، زهره
Poster	1095	Quantitative Nanostructure–Activity Relationship (QNAR) modeling for the cellular uptake of magnetofluorescent engineered nanoparticles in pancreatic cancer cells	پهلوان یلی، زهرا
عدم واریز هزینه	1096	Bee algorithm as a descriptor selection in QSAR study of $\beta$ -site amyloid precursor protein cleaving enzyme1 (BACE1) inhibitors	*****
Poster	1097	Evaluation of long-heating kinetic process of edible oils using ATR-FTIR and chemometrics tools	محبوبی فرد، مرجان
عدم واریز هزینه	1098	Spectrophotometric determination of acidity constant of Cinnamic acid using rank annihilation factor analysis (RAFA)	*****
Poster	1100	QSPR Approaches to Elucidate the Stability Constants between $\beta$ -Cyclodextrin and some Organic Compounds: Docking Based 3D Conformer	میررحیمی، فرشته السادات
Poster	1101	Probing and identification of the solute effects on the methanol–water association by chemometrics methods	شجاعی فرد، زهرا
Poster	1102	The study of pre-concentration and determination of some phthalates in plastic containers by using QuEChERS method and high performance liquid chromatography	اقوامی، بنفشه
Poster	1103	Application of Extended ratio subtraction and simultaneous ratio subtraction methods for determination of Toluidine Blue and Methyl violet in their binary mixture	زاهدنیا، زهرا
Poster	1104	Classification of Mentha piperita accessions according to their antioxidant activity	ایزدیان، پریسا
Poster	1105	3D-QSAR Studies for Prediction of Graphene Dispersibility in Diverse Organic Solvents	میررحیمی، فرشته السادات
Poster	1106	QSAR study of pyrazole sulfonamide derivatives, a potent inhibitor of trypanosoma brucei N-myristoyltransferase (TbNMT) using bee algorithm	علیزاده فرد، وحید
Oral	1108	Investigation of a sewage treatment plant for removal of selective pharmaceutical and personal care products using HPLC-DAD and second-order calibration	رشوند، معصومه
Poster	1110	MIA for a QSAR study of inhibitory activity of CCB with using WT and GA for pixel processing	اکرمی، احمد
Oral	1111	Design and construct a small fluoremeter with a smartphone as the detector associated with image processing	صابری دهکردی، زینب
Poster	1113	Determination of Enantiomer Excess of Some Amino Acids Using Fluorescence Spectroscopy and Multivariate Curve Resolution Analysis	نقاشیان حقیقی، آزاده
Poster	1115	Multiset analysis of ATR-FT-IR and synchronous fluorescence spectra by multivariate curve resolution analysis to study the hydrogen-bond disruption in Ethylene Glycol-water binary mixtures	طالبانپوریات، الهه
Poster	1116	Odor Visualization and Discrimination of Herbal Distillates Using a Colorimetric Sensor Array	بردبار، محمد مهدی

Poster	1117	The complexity of molecular docking and need for chemometrics: studying drug resistance in HIV-1 protease as an example	مبارکی، نبی الله
Poster	1119	Investigation of the interaction between adenosine and DNA G-quadruplex by fluorescence resonance energy transfer and molecular modeling	پشته شیرانی، مرضیه
Poster	1120	Infrared spectrometric evaluation of carbon nanotube sulfonation process	محمدی، مهسا
Oral	1121	What is in Chemometrics for Chemoinformatics: Validating Classical Relativity in Chemical Space	مانی ورنوسفادرانی، احمد
Poster	1122	Tabu search as a descriptor selection in QSAR study of 1,5-diheteroaryl-penta-1,4-dien-3-ones: a class of promising curcumin-based anti-cancer agents	تیموری، مریم
Poster	1123	The Effect of Acetylation on Lysine Residues on the Structure and Dynamics of TDP-43	رضایی مخوری، فرحناز
Poster	1124	QSAR Study of tri-substituted 1,2,4-triazoles as inhibitors of the annexin A2-S100A10 protein using the multiple linear regression model	محمد رضایی، وحید
عدم واریز هزینه	1125	Theoretical Study On $^1\text{H}$ , $^{13}\text{C}$ NMR Shielding, Structure and vibrational assignment, And Physical Properties of some of the diamondoids	*****
Oral	1126	Introducing of invasive weed optimization as a new variable selection method	شیخی زاده، ساحله
عدم واریز هزینه	1127	Diagnosis of brain glioma using near-infrared micro-spectroscopy comparing partial least squares discriminant analysis and target factor analysis	*****
Poster	1128	Spectroscopic study on the interaction of 5, 10, 15, 20-Tetrakis(4-([1,10] Phenanthroline[5,6-f]imidazol-2 yl) benzen) porphyrin with DNA by means of chemometric methods	عالیشاه، رقیه
عدم واریز هزینه	1129	Improvement of the partial least squares model for simultaneous determination of dyes by Orthogonal signal correction	*****
Poster	1130	Application of Hard Modeling Method to determine DNA-pl.dppz complex binding constant	عالیشاه، رقیه
Poster	1131	Application of genetic algorithms for pixel selection in multivariate image analysis for a QSAR study of Inhibition of the growth of tumor cell lines for novel antitubulin agents	آقایی، معصومه
Poster	1132	Study of human prostate anticancer activity of novel arylpiperazines using genetic algorithm and adaptive neuro-fuzzy inference system	اکرمی، مهناز
عدم واریز هزینه	1133	Application of mean centering of ratio spectra for dye degradation study using Fenton reaction	*****
عدم واریز هزینه	1134	Target transformation fitting for simultaneous dye degradation using Fenton reaction	*****

Poster	1135	Application of Central Composite Design for Optimization of Coacervative Extraction of Cu (II) Using Anionic Surfactant	محسنی، نعیمه
Poster	1138	Structural analysis of ZSM-5 nano zeolite by diffuse reflectance near-infrared spectrometry and chemometrics	امانی، شهین
Poster	1139	Simultaneous quantification of triphenylmethane dyes using three-way data analysis	بیات، مهرانوش
Poster	1140	Multivariate curve resolution-alternating least squares assisted voltammetry for simultaneous determination of non-steroidal anti-inflammatory drugs	سعیدی نژاد، فائزه
عدم واریز هزینه	1142	Spectrophotometric determination of oxazepam in drug and biological samples by parallel factor analysis	*****
Poster	1144	Simultaneous determination of drospirenone and ethinyl estradiol by spectrophotometric method using partial least square and support vector regression	رحیمی فراهانی، سعیده
Poster	1145	Prediction of the acidity number of edible oils during long heating procedure using chemometrics tools based on FTIR-ATR results	محبوبی فر، مرجان
Oral	1146	Challenges in drug discovery and development	خیامیان، تقی
Oral	1147	Influence of bonded-phase density in chiral chromatography via molecular simulation	آقای، الهام
Poster	1148	Chemometric approach to optimization of micellar liquid chromatographic separation of some natural anthraquinone dyes	رمضانی مقدم، امیر
عدم واریز هزینه	1149	Spectrophotometric simultaneous determination of Cobalt, Copper and Nickel using pH gradient Flow injection analysis and MCR-ALS	*****
Oral	1150	Quantitative sequence activity relationship of bitter tasting threshold peptides: a comparison study between some two-way and three-way modeling methods	یوسفی نژاد، سعید
Poster	1136	Elicitation of the most important structural properties of volatiles affecting electroantennogram responses in <i>Aphis fabae</i> ; a QSPR approach	بیک نژاد، داود
Poster	1151	Evaluation of partial least squares-discriminant analysis for classification of gas chromatography fingerprints of saffron	علی اکبرزاده، غزاله
Poster	1152	Prediction of photolysis half-lives of dihydroindolizines by genetic algorithm-multiple linear regression (GA-MLR)	بیک نژاد، داود
Poster	1153	Quantitative Structure-Electrochemistry Relationship in Non-aqueous Solutions: On the Reduction Potential of Anthraquinone Derivatives in Organic phase	یوسفی نژاد، سعید
عدم واریز	1154	Design and evaluation of a novel Bismuth optical sensor by using PC-ANN application	*****

هزینه			
Poster	1155	Simultaneous determination of anionic dyes from aqueous solution using partial least square regression	بگتاش، مریم
Poster	1156	Competitive Biosorption of Safranin, Malachite green and Januse green B in ternary system by Sargassumilicifolium: Application of artificial neural network modeling and Taguchi L16 orthogonal array design	خدابخشی، مینا
Poster	1157	Multivariate optimization and determination of Hg(II) content in aqueous samples after preconcentration with modified graphene oxide	امیری، نیره
Oral	1158	Computational Chemogenomics: an emerging strategy for rapid target and drug discovery	قرقانی، سجاد
عدم واریز هزینه	1159	Metal-dependent activity of the 8-17 DNzyme studied by resolution of rank deficient multi-way fluorescence data	*****
Poster	1160	Application of machine learning methods in classification and pattern recognition of Carbonic anhydrase (CA) inhibitors	انتظاری هروی، یگانه
Poster	1161	Principal Component Analysis of Molecular Dynamics Trajectories on Unbound and Agonist-Bound Dopamine D2	هوشمند، شبنم
Poster	1162	Dispersive liquid-liquid microextraction based on solidification of organic drop with central composite design for the determination of 5-hydroxymethyl-2-furfural using high-performance liquid chromatography	شیری، فرشته
Poster	1163	Simultaneous Spectrophotometric determination of Cysteine and Ascorbic acid using Cu(OH)2/CuO Nanowires and Parallel Factor Analysis	کوهساریان، مریم
عدم واریز هزینه	1164	Gene expression classification (tumor or non-tumor) using wavelet based feature extraction method	*****
Oral	1165	Quantitative Nanostructure Activity Relationship Modeling (Nano-QSAR)	صلاحی نژاد، مریم
Poster	1166	Using QSAR calculation of Indol derivatives and 7-azaindoles for the treatment of Multiple Sclerosis(MS)	موسوی، سیده مریم

Poster	1167	Using QSAR calculation of amid derivatives for the treatment of Parkinson's disease	نظیری، مولود
Oral	1168	Identification of potential antimicrobial and antioxidant constituents in some medicinal herbs using hephenated chromatograrhic methods and multivariate calibration techniques	معصوم، سعید
Poster	1169	Comparison of Cadmium-induced toxicity in ionic and nano forms applying <sup>1</sup> HNMR based Metabolomics analysis	خوشکام، مریم
Oral	1170	Present and future of QSAR	فاطمی، محمدحسین
